Introduction

It is a card-swiping application for users to pick the cats that they want to adopt from SPCA Florida.

- Objective
    - To help users find the cat they like in a straightforward and interesting way.
- Motivation
    - It's time-consuming and boring to search for cats' images and information on SPCA Florida website. Card-swiping apps like Tinder make this process of search interactive and popular in the market.
- Target users
    - People who want to adopt a cat from SPCA Florida.

Design and logic path
